

Clamshell buckets BPV (Earthworks)

Vertical Cylinder Clamshells for truck cranes, designed for normal daily work: for excavation of foundations, trenches, gutters, etc...

Fitted as standard with Pilot Valve & integrated pressure relief valve

Bearings with bronze bushings

Reinforced and optimised shell support

The BPV series is a vertical cylinder bucket.

The fine-grained steel shells and manganese steel cutting blades ensure a long service life.

The cylinder in its housing is well protected against all shocks.

MAIN FEATURES

- **BEARINGS** : Bronze with grease valves
- **CLOSING FORCE** : 20 kN on BPV & 32 kN on BPV550R double cylinder

TYPE	Capacity L	Width mm	Opening mm	Load Kg	Teeth	Weight Kg
BPV 150	150	325	1390	3000	3	240
BPV 200	200	400	1390	3000	3	250
BPV 250	250	500	1390	3000	5	265
BPV 325	325	600	1390	3000	5	280
BPV 350	350	650	1390	3000	5	285
BPV 450	450	800	1390	3000	9	310
BPV 550 R	550	1000	1390	3000	9	360
